860.816.7836

Beginning in June, the Metropolitan District (MDC) and S. Carpenter Construction, will be working in your neighborhood to begin construction on the Farmington Avenue 7.1 Sewer Separation Project. The purpose of this project is to separate existing combined sewers within the street and to eliminate clean water sources from entering the sanitary sewer.

As these actions may impact your daily activities, keeping **YOU** informed is an essential component to the success of our work.

We encourage you to attend the meeting on June 2nd to share your comments and ideas, meet the project managers and learn about the work planned in your neighborhood. We look forward to seeing you there!

www.themdc.com

MDC is a non-profit municipal corporation supplying water and sewer services to its eight member towns: Bloomfield, East Hartford, Hartford, Newington, Rocky Hill, West Hartford, Wethersfield, Windsor, and portions of other towns in the region.
