Beginning this fall, the Metropolitan District (MDC) and Paganelli Construction Corporation will be working in your neighborhood to begin disconnection work as part of the Clean Water Project. This work improves the sewer collection system by removing an individual building's stormwater connections from the sanitary sewers and directing them to the storm drains.

As these actions may impact your daily activities, keeping YOU informed is an essential component to the success of our work.

**We encourage you to attend the meeting on October 6th** to share your comments and ideas, meet the project managers and learn about the work planned in your neighborhood. We look forward to seeing you there!
